

The Tribune

- *The Tribune* is an oral newspaper presented by two students before the Talk Session.
- *The Tribune* **lasts 3 to 4 minutes** and focuses on “What has happened lately at the your engineering school, at the university or in the town where you are studying”.
- You can also deal with “What is happening?” and/or “What will be happening?” We suggest that the speakers describe or tell us about sports events, competitions, trips, shows, club activities, fairs, events organized with sponsors, etc. that all the students will feel concerned about.
- At least one slide must be shown and left with the teacher after the presentation with the names of the two students who gave the Tribune clearly indicated.
- You may also present a PowerPoint slideshow. In that case provide your teacher with a PDF version and a one-page file in MS Word summarizing the presentation.
- Don't forget your names (*first name first*) and date as well as your group number and the name of your teacher/supervisor, i.e., Ms. Raynaud, Ms. Leschelt or Mr. Jones.
